

The Eco Butler Recycling Boxes and all which goes into producing the printed and lined product is locally made. in South Africa.

Boxes branded with your logo, identify your institution as eco conscious. It also illustrates that you accept responsibility for the environment and every living thing on this planet!

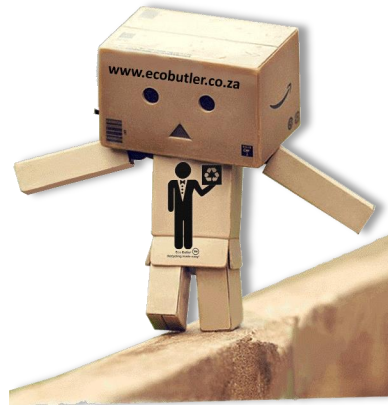

Each Household, Office, School and Business generates different waste. Our system allows **YOU** to chose whether to use a small or large box for individual recyclables. Our Labels are designed to be used on the small and large boxes.

Cleaning up and preserving our planet is possible. It is everyone's responsibility!

Children, who cannot read yet, can learn to recycle thanks to our colour coded labels.

The Eco Butler Recycling boxes make the correct separation of recyclable products easy for children and adults.

Balancing modern lifestyles and our environment !

Recycle today for a better tomorrow!

Eco Butler Recycling Boxes

www.ecobutler.co.za

Eco Butler Recycling made easy!

Batteries **Ink Cartridges** **Light Bulbs**

Save for safe disposal

www.ecobutler.co.za

Batteries, Light bulbs and most e(electronic)waste contain toxic components which will poison the soil and groundwater if left in a landfill. Most PnPay's provide bins for such waste and save disposal thereof. Most stores, selling electronics, will take your e-waste and ensure it gets disposed of in a safe way.

GLASS

NO
Drinking glasses
Remove lids and separate as plastic/tin

www.ecobutler.co.za

Every glass bottle recycled saves enough energy to light a 100W light bulb for four hours.

TIN - CANS

www.ecobutler.co.za

Recycling one single aluminium can saves enough energy to run your TV for 3hrs or power a 100W bulb for 20hrs.

PAPER + **CARDBOARD**

NO
Waxed paper wraps, eg. Sugars, Chappies, Wax paper.
Tetrapak eg. Milk, Fruit juice, Cream Cartons, Foiled giftwrap,
Tissue Paper, Paper towels, Tissues
www.ecobutler.co.za

Recycling Paper saves natural habitats. Each ton of paper recycled saves 17 trees, 1500 litres of oil, three cubic metres of landfill space, 4000 kilowatts of energy and 26500 litres of water. Making recycled paper instead of paper that has no recycled content, uses 64% less energy and uses 58% less water.

One tree can filter up to 30kg of pollutants from the air each year.

PLASTIC

www.ecobutler.co.za

50% of all polyester carpet manufactured is made from recycled plastic bottles. It takes five 2lt plastic bottles to make 1 square foot of carpet. 90% of polyester & polar fleece used in the garment and fabric industry is manufactured from recycled PET Bottles. Most waterproof sports and luggage bags are Polyester.

RECYCLING

www.ecobutler.co.za

If a service collects all recyclables, in one bag, from your curb, you will need one box to collect all your recyclables and a separate one for batteries, light bulbs and e-waste.

Store only clean items. And crush or flatten items to save space!
